Hope Under Siege

After a successful photography exhibition held in Dubai last December, Villano6 – in association with Showcase Gallery – is all set to bring an exciting collection of Pakistani contemporary art for art connoisseurs in the Emirates.

This collection entitled 'Hope Under Siege' showcases the work of some exceptionally talented artists whose work has garnered a loyal clientele not only in their home country but around the world.

Curated by Omer Alvie, in association with Showcase Gallery in Dubai, the 14-day exhibition will run from March 16 to 30, 2009.

The collection brings together popular contemporary names such as Qamar, Salman Farooqi, Akbar Ali and Sarfraz Musawir, who have garnered critical and commercial success both nationally and internationally. The styles are varied, as are the backgrounds of each artist but each painter presents a unique point of view; his distinct ideas and opinions about the world. Be it mixed media, oil on canvas or miniature, each piece stands out amongst the best of Pakistani contemporary art.
